

Kentix360

Overview

The Kentix360 cloud expands your Kentix system by essential improvements in availability, alerting, data recording and accessibility. Advantages of the Kentix360 Cloud are:

- Safe remote access by smartphone app without complicated setup
- PUSH messages and redundant e-mails without configuration
- Backup of the AlarmManager configuration
- Routine checkup of the AlarmManager / AccessManager availability
- 12 month storage of recorded data and logbook
- Remote control of the Kentix DoorLock-components via App
