

# Was muss bei der Erweiterung eines bestehenden Kentix-Systems in Bezug auf Kompatibilität beachtet werden?

When changing or purchasing a new Kentix AlarmManager, existing Kentix MultiSensors can continue to be used without any problems. Depending on the device, an update may be required.

New MultiSensors (after 02/2018) do not work on an old AlarmManager (before 02/2018).

An overview of the compatibility can be found in the following table

<b>Generation 1 until 01/2018</b>	<b>AlarmManager</b>	<b>AlarmManager</b>
<b>Generation 2 from 02/2018</b>	<b>Generation 1</b>	<b>Generation 2</b>
MultiSensor RF Generation 1		
MultiSensor RF Generation 2		
MultiSensor LAN Generation 1		after update MultiSensor
MultiSensor LAN Generation 2	-	
MultiSensor LAN-RF Generation 1		after update MultiSensor
MultiSensor LAN-RF Generation 2	-	
KeyPad		-
KeyPad-Touch		
MultiSensor-Door V2		
MultiSensor-Door V1		-
MultiSensor-Rack-Mini		-
Leakage sensor (KLS03)		
Leakage sensor Rope (KLS03-Rope)
