When changing batteries, always replace all batteries.

Dispose of old or used batteries properly.

Keep batteries out of the reach of children.

Maintenance

Kentix devices must be checked for functionality as part of annual maintenance.

Disposal

Electrical appliances and batteries must be disposed of separately from household waste.

Dimensions

Installation

Adapter KXC-RA4-RITTAL-VX

The hole pattern above is required for mounting the DoorLock-RA4 on a door. A hole of at least 12.5 mm must be drilled in the door so that the connection cable can be fed through the door.

The position of the hole can be marked using a drilling template. The template is available on request.

Assembly steps

1. Drill hole for cable entry
2. Feed the connection cable through the hole
3. Connecting the cable to the DoorLock
4. Put the DoorLock on the door
5. Tighten the fastening screws with a screwdriver (tightening torque 1.8 Nm)

First connect the DoorLock with the slimline patch cable before attaching it to the rack. Only install the DoorLock when it is open!

For doors with a design bevel, the existing adapter plate from Rittal must be used to compensate for the bevel.

Tools required

1. Metal drill bit with a diameter of at least 12.5 mm
2. TORX® screwdriver with drive size 25
