

KentixONE - First Steps Part 6: Setting up MultiSensor TI

This video explains how to set up the MultiSensor TI after initial startup. Commissioning is shown in parts 2 and 3 of this series.

Shown are:

- The basic settings for all multisensors using the example of the MultiSensorTI
- Alarm assignment for all multisensors using the MultiSensorTI as an example : Off, Arm Active, Continuous Active, Fire, Sabotage, System Messages and “Display Only” for all types of devices and sensors.
- Define warnings.
- Environmental monitoring.
- Early Fire Detection.
- Burglar alarm.
- Especially for MultiSensor TI: Configuration of the thermal image with rotation in 90° steps, display of a defined temperature range and exclusion of areas from the temperature analysis.
