Network Camera 4MP Bullet – MANUAL

Legacy product
This product is no longer available. The documentation is still available as an archive.

ORDER-CODES:
KX-BC1A-4-IR

Bullet network camera for integration into Kentix systems. The camera can be easily assigned to alarm zones or doors in the AlarmManager or AccessManager. The camera delivers pictures with Full HD resolution. The camera’s adjustable focal length (FOV 35-95°) makes it ideal for monitoring indoor-outdoor IT and technical areas. Thanks to the LED infrared illuminator, almost all decisive image details are captured, especially under dark lighting conditions. The varifocal lens with remote zoom ensures easy configuration and installation of the network IP camera. Thanks to the ONVIF standard, it can also be integrated into video management systems.

The URL to connect a MOVE camera in KentixONE is:
[IP_address_of_the_camera]/cgi-bin/jpg/image.cgi
